

TLi - PLUMPING HYDRATION GEL MASK

SKIN TYPES Appropriate for all skin types including sensitive.

DESCRIPTION This mask contains a potent combination of medical grade hyaluronic acid and Pentavintin®, a skin strengthening and hydrating ingredient. In as little as 15 minutes, these clinical strength ingredients plump up the skin and provide a deep level of hydration that can last up to 72 hours. The skin will appear luminous, hydrated and plumper after just one to two treatments.

DIRECTIONS **Professional Use** - This is a single step process. Open the packet and gently unfold the topically infused gel mask. Place on the face with the eyes, nose and mouth openings positioned in the appropriate places. To maximize the mask, smooth the gel so that it lays flat on the skin and covers as much area as possible but still allows the client to feel comfortable. Apply any excess liquid from the packet to the décolleté area. Once the mask is in place, please see *Topical Light Infusion Plumping Hydration Gel Mask* protocol for complete infusion details.

**POWER PURE™
INGREDIENTS** **Medical Grade Hyaluronic Acid** - Increases moisture retention, providing a more hydrated and supple skin texture. Hyaluronic Acid holds more hydration to the skin than any other natural substance.

Pentavintin® - provides instant deep hydration lasting for 72 hours. Strengthens skin barrier and stimulates key genes for skin barrier improvement.

**ACTIVE
INGREDIENTS** **Peptan® SR Marine (Hydrolyzed Collagen Peptide)** - Boosts fibroblast renewal and stimulates the synthesis of collagen molecules within the dermis, thus preserving its structural organization. It also protects against free radicals, limiting damaging effects.

Tocopherol (Vitamin E) - Is known as an antioxidant “superstar” due to its incredible healing and repairing properties and provides natural protection from damage caused by the sun.

**COMPLETE
INGREDIENT
LISTING** Purified Water, Peptan® SR Marine (Hydrolyzed Collagen Peptide), Sodium Hyaluronate (Hyaluronic Acid), Pentavintin® (Saccharide Isomerate), Rosa Centifolia Flower Extract, Glycerin.
